WELCOME TO GLASTONWICK 2010

by Attila the Stockbroker

Welcome, everyone, to our 15th Glastonwick, the fourth year in the beautiful surroundings of Church Farm. Huge thanks as always to Jenny Flake & Trevor Passmore for having us, to Glastonwick co-founder and Beer Monster Alex Hall for sourcing the beers, to the award winning Dark Star Brewery for providing the infrastructure, to Matt and Karen Wickham at the Evening Star, to Emma, Ingrid, Gob, Loz, Nigel and all our team of volunteers, to all the pubs who helped by selling the tickets, and special thanks to our friends at the Ropetackle Arts Centre in Shoreham (www.ropetacklecentre.co.uk – check it out, lots happening!) who provided Glastonwick with online ticket facilities for the first time, which has made everything much easier! Above all, of course, thanks to you lot for being here. Have a wonderful time...

THE BOSSY BIT! Each day, please **HAND IN YOUR ENTRANCE TICKET** and get a colour-coded wristband. Musicians/volunteers please get these as well. Then you need to buy some beer tokens! You'll need the correct colour wristband to be served at the bar - please display it prominently. Hang on to your camping tickets if you're camping. As last year, no commemorative glasses: it's a working farm, glass isn't allowed, so no glass on site please. Campers – and everyone – please make sure every last bit of rubbish goes in the black sacks (if you see some, especially anything glass which shouldn't be on site, Womble it!)

PARKING for non-campers is in the field immediately to your left as you arrive on site. For campers (including those with camper vans etc) and musicians, it's in the camping field. Please don't pitch tents in the car park. **CAMPING** is in the top field to the right, past the music barn, beyond the cattle grid – there's a sign. Please don't camp in the enclosed space to the left, and look out for rabbit holes! **STAND PIPE** is in the camping field and there's another cold water tap at the back of the toilet block. **TOILETS & SHOWER** are next to the barn and more toilets in the camping field. Barbecues, camping stoves etc. are OK but **PLEASE NO FIRES and when the music stops/bar shuts PLEASE KEEP THE NOISE DOWN** in the camping field and on the way out. Other campers want to sleep and we don't want neighbour complaints...The camping field is very big so I suggest that those who want to go straight to sleep camp at the end nearest the barn, while hardier souls head down towards the far end. Please don't wander into the farm bits, jump on the bales or climb on vehicles – they are out of bounds!

FOOD is served in the covered barn opposite the music one and the choice this year will be even wider than before. There will be hog roasts on the Saturday again.

KIDS: As previously Jenny will be running tractor rides (weather permitting, price £3) and we have a storyteller, Richard 'Story' Beard on the Saturday, whom you'll find in his YURT.

FIRST AID will be provided by St John's Ambulance at the garage by the farm gate.

CLOSING TIME: The bar shuts at 6pm on Sunday, and we'd appreciate it if everyone could be off site by 7 – it's a working farm and we need to pack up. Please make sure all rubbish is in the black sacks before you go.

THE MUSIC: As always, if you want to chat, please head away from the stage so the listeners can listen, and if you like what you hear please support the performers by buying stuff! That's all from me apart from hoping you all have a great time! Cheers, Attila

THE BEERS

by Alex Hall, Glastonwick co-founder and real ale diviner (and Imbiber)

As always we have the ultimate pairing of Attila's handpicked musical and poetic talent coupled with the 68 beers I deem worthiest, rarest, most eclectic, most 'scoopable' - plus of course a good range of ciders and perries (which are a joint effort to arrange with other helpers, especially Glyn - thanks!). For the first timers among us, Glastonwick is a head-on collision of the best CAMRA-style beer festivals and the best independent music festivals, and remains unique in that respect. It is absolutely the antidote to corporate music festivals where the only thing to drink tastes like Simon Cowell's urine (not that I've ever tried it, mind!) and also the antidote to unnecessary, ignored, or inappropriate beer festival entertainment put on as an afterthought - or simply a bad idea (Oompah band, anyone?).

All our beers are traditional cask-conditioned 'real' ales from small, artisanal breweries. All ciders and perries (like cider but made with pears) are straight from the farmhouse and are made with real apples and pears, as opposed to fruit concentrate used in processed, mass produced, artificially fizzed-up brands. They are all hand-crafted by brewers and cider makers alike who are dedicated to keeping tradition and quality alive in the face of the ever-present spectre of global corporate standardisation, and the resulting dumbing down of taste and loss of local craftsmanship. We support brewers which are motivated by quality and tradition rather than corporate profit. We at Glastonwick rebel against the creeping corporate rot. Real ale, cider, and perry is our tradition and must remain so, please - wherever you are - support the real stuff and reject the mass-produced corporate zombie piss that collectively represent today's global sterility onslaught.

Basically, what we have here is beer and cider just as they were everywhere through the ages until mass-production techniques by accountant-led big breweries and their destructive, brainwashing marketing minions got their hands on our brewing heritage in the middle of the last century. Real ales are served at the traditional cellar temperature of pubs through the centuries - about 12-14C, so cool but not chilled. This is the perfect temperature to taste and enjoy all the flavours and nuances of these brews; the modern marketing concept of chilling mass produced keg beers (think "Extra Cold", etc. - blech!) is solely to make them tasteless by extreme cold numbing your tastebuds - the large quantities of cheap corn, rice, maize, etc. that these corporately made "beers" often contain to pad out the more expensive malted barley content make for a foul pint if served at cellar temperature. "Extra [anything]" will almost certainly be 'extra bad' - or 'extra bland'. Any common brand of fizzy, mass-produced lager that has been left to warm up to real ale temperatures is truly disgusting to smell and taste. With keg ales, these are mostly just bland and tasteless. Guinness in whatever draught form (especially "Extra Cold") and John Smith's 'Extra Smooth' are prime examples of today's zombie ale brews - no exaggeration there as they really are the living dead - living marketing on the bar top - but dead, filtered, pasteurised beer is residing inside the keg.

These are examples of beer to be given new 'life' by extraneous CO2 or nitrogen pushing it out off the fizz tap. So, now you know the reason for the 'extra cold' corporate marketing bombardment - it's simply a cover up of how bad they actually are. Cask beer forms a huge part of our heritage, as does farmhouse cider/perry. Please support these - or forever be at the mercy of those nice, smiley, happy, corporate salespeople in suits and ties that want you to forever be one of their brand loyal imbibing drones that has no voice. Please be a real person - not a corporate, mass-produced, brand-loyal sheep. Oh, I almost forgot in my anti-corporate ranting to wish you that I hope you enjoy the range on offer here!

Aside - Please note NOT ALL BEERS AND CIDERS WILL LAST THROUGH THE WEEKEND; they will be served from Friday night (as long as they are ready - the beers need time to settle and condition) until they run dry. When ordering, please ask for the FULL NAME INCLUDING BREWERY to speed service as they are arranged on the stillage in alphabetical order left to right by brewery name. Please go to a server near the cask of your choice. Enjoy Glastonwick 2010 supporting Britain's unique real ale (and farmhouse cider/perry) heritage. Please always be observant of our necessary rules in order to make a great event for everyone. Cheers - enjoy Glastonwick!
